RE: PRELIMINARY ANTIDUMPING DUTY DETERMINATION OF CERTAIN
CARBON STEEL BUTT-WELD PIPE FITTINGS FROM PRC(A570-814)

1. The Department of Commerce published on December 26, 1991, its preliminary determination of sales at less than fair value regarding pipe fittings from the PRC. Commerce also made a preliminary determination that critical circumstances exist with respect to the subject imports.

2. The products covered by this investigation are carbon steel butt-weld pipe fittings, having an inside diameter of less than 360 millimeters (14 inches), imported in either finished or

unfinished form. These formed or forged pipe fittings are used to join sections of piping systems where conditions require permanent, welded connections, as distinguished from fittings based on other fastening methods (e.g., threaded, grooved, or bolted fittings). Carbon steel butt-weld pipe fittings are currently classified under subheading 7307.93.30 of the Harmonized Tariff Schedule (HTS). Although the HTS subheadings are provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

3. For further reporting purposes this case has been assigned investigation number A-570-814.

ACTION:

4. U.S. Customs Service shall suspend liquidation of all entries of carbon steel butt-weld pipe fittings from the PRC from all manufacturers, producers and exporters, that are entered or withdrawn from warehouse for consumption on or after September 27, 1991, (i.e., 90 days prior to the date of publication of the preliminary determination notice in the Federal Register), and shall require a cash deposit or the posting of a bond equal to the estimated preliminary margin percentages listed below:
